

See you at CONEXPO-CON/AGG!

CONEXPO-CON/AGG will be held March 10-14 at the Las Vegas Convention Center in Las Vegas, Nevada. This is North America's largest construction trade show and will consist of over 2,000 exhibitors including ChemStation!

Held every three years in Las Vegas, this event features the latest equipment advances and newest technology applications in every aspect of construction. Exhibitors will showcase new products for every major construction industry including asphalt, aggregates, concrete, earthmoving, hauling, lifting, trucking, underground construction and more.

This is a great chance to see a wide selection of products and services all in one place. If you are planning to attend this event, please stop by and say hello to the ChemStation Team in Booth #S-65721!

To learn more about this event, visit www.conexpoconagg.com.

Using a Fire Extinguisher

Would you know how to use a fire extinguisher if needed? Most operate using the following P.A.S.S. technique found on www.osha.gov:

PULL: Pull the pin. This will also break the tamper seal.

AIM: Aim low, pointing the extinguisher nozzle (or its horn or hose) at the base of the fire. (NOTE: Do not touch the plastic discharge horn on CO2 extinguishers, it gets very cold and may damage skin.)

SQUEEZE: Squeeze the handle to release the extinguishing agent.

SWEEP: Sweep from side to side at the base of the fire until it appears to be out. Watch the area. If the fire re-ignites, repeat steps 2 - 4.

If you have the slightest doubt about your ability to fight a fire, you should evacuate immediately.

Our Path to Sustainability

ChemStation has been a steward of the environment since 1977. Our system of delivery to unique refillable containers reduces harmful environmental impacts caused by the disposal of typical drum and tote containment. Our refillable delivery equates to lower manufacturing costs, lower energy use, and less packaging. Our products are also biodegradable and do not pose a threat to the environment. Our system makes life safer and healthier for everyone.

ChemStation's path to sustainability starts with the development of our concentrated products and ends with our system of delivery right to the customer site, meeting the chemical needs of today with care and concern for the natural resources necessary for future generations.

ChemStation enjoys helping our customers live up to their green initiatives. Visit www.chemstation.com to learn more about us.

Value is not determined by those who set the price. Value is determined by those who choose to pay it.
