

Keeping It Clean... And Sanitized

As an essential business within the chemical sector, ChemStation continues to operate on a normal basis, providing our customers with much-needed deliveries in a timely manner.

With employee health and safety as a priority, we aim to be a resource for our customers now more than ever. When it comes to your facility, "Keeping it Clean... And Sanitized" is our mission today, tomorrow, and beyond.

ChemStation provides high quality industrial cleaning chemicals using a unique refillable delivery system. We offer our customers a full package of products and equipment for facility maintenance, including: floor soaps; general purpose cleaners and degreasers; scrubber fill stations; sanitizers for use in common areas; hand sanitizers; surface sanitizers; and fogging applications and equipment.

For ChemStation + COVID-19 related materials and to access informational product flyers (including our Facility Maintenance Flyer), please visit <https://fighq.us/C19Rsp>.

Asphalt Release Solutions

To meet the specialized needs of the asphalt release industry, ChemStation offers an array of non-petroleum-based asphalt release agents that are State DOT-approved and NTPEP-listed.

We also supply:

- Truck Washes
- Degreasers
- Asphalt Dissolution Products
- Asphalt Release Application Equipment
- Drag Slat Release Agents and Cleaners

Our exclusive Asphalt Release System pumps 6 to 8 gallons/minute with multiple dilution rates and has run-dry prevention for the pump.

Lawn and Garden Tips

Reduce, reuse, and recycle, even when it comes to your lawn and garden, with these tips from the EPA:

- Raise the cutting height of your lawnmower during hot summer months to keep grass roots shaded and cooler, reducing weed growth, browning, and the need for watering.
- If you need large lawn and garden equipment such as tillers and chainsaws, you can reduce waste (and save money) by setting up a sharing program with your neighbors.
- When you mow, "grasscycle" by leaving grass clippings on your lawn instead of bagging them. The clippings will return nutrients to the soil instead of taking up space in landfills.
- Donate healthy plants that you want to replace to community gardens, parks and/or schools.

Learn more tips at www.epa.gov/recycle/reducing-waste-what-you-can-do.

Courage is being scared to death, but saddling up anyway.
— *John Wayne*

Nothing is impossible, the word itself says 'I'm possible'!
— *Audrey Hepburn*

It isn't what you have or who you are or what you are doing that makes you happy or unhappy. It is what you think about.
— *Dale Carnegie*
