

“In order to be irreplaceable one must always be different.”

Coco Chanel

## We Are Different

We are not like the other industrial cleaning chemical companies – that is what makes us unique, efficient, economical, sustainable, safe, and the best choice you could make for your company! Here are a few ways we are different:

- **Refillable Tanks:** No more employee handling, storing, and disposing of containers.
- **Efficient:** Custom-blended products are delivered directly into the tank, where you need it and right when you need it.
- **Telemetry:** Remote inventory monitoring and reporting for our tank systems. You'll never run out of product and your employees don't have to manually check the tanks.
- **Organized:** Cleaner, safer chemical rooms.
- **International Coverage:** 60+ locations across North America for a quick response time when you need it.

## Practice Winter Driving

Winter driving can be very dangerous. NHTSA (National Highway Traffic Safety Administration) and OSHA (Occupational Safety and Health Administration) provide information on safe winter driving to help prevent motor vehicle injuries due to winter storms.

One way they recommend preparing for a trip is to practice cold weather driving:

- During daylight, rehearse maneuvering slowly on the ice or snow in an empty lot
- Steer into a skid
- Know what your brakes will do: stomp on antilock brakes, pump non-antilock brakes
- Stopping distances are longer on ice and water-covered ice
- Don't idle for a long time with the windows up or in an enclosed space

## Still Helping to Refill the Nation's Blood Supply

In early December, the crew at ChemStation Headquarters in Dayton, Ohio helped to *Refill the Nation's Blood Supply* again this year with a record participation from the ChemStation Team.

Donating blood is essential to community health and the need for blood units is constant. The Red Cross urgently needs the help of blood and platelet donors to meet the needs of patient care.

And for those who have fully recovered from a verified COVID-19 diagnosis, your convalescent plasma donation may help up to 4 coronavirus patients in need! Donors are critically needed as COVID-19 cases rise.

Please join us in our mission by donating today! Just click the link below to find a donation center near you and click “See Times” to register: <https://www.redcrossblood.org/give.html/find-drive>

Gratitude turns what we have into enough, and more. It turns denial into acceptance, chaos into order, confusion into clarity...it makes sense of our past, brings peace for today, and creates a vision for tomorrow.

— *Melody Beattie*

Courage is like a muscle. We strengthen it by use.
