

## Asphalt Release Solutions

You may know that ChemStation provides solutions for many different industries, but did you know that this includes the asphalt release industry? To meet the specialized needs of this industry, ChemStation offers an array of non-petroleum-based asphalt release agents that are State DOT-approved and NTPEP-listed.

We also supply truck washes, degreasers, asphalt dissolution products, asphalt release application equipment, drag slat release agents and cleaners, and more.

Our exclusive Asphalt Release System (ARS) Unit is an automated drive-through spray system that coats the truck bed with an asphalt release agent to prevent asphalt from sticking. It pumps 6 to 8 gallons/minute with multiple dilution rates and has run-dry prevention for the pump. Like our products, our ARS Unit can be custom-built to meet your facility's needs.

## Benefits of Recycling

Recycling is a way that we can reduce the amount of waste we produce to, in turn, help protect our environment for future generations. The EPA lists the following benefits of recycling:

- Reduces the amount of waste sent to landfills and incinerators
- Conserves natural resources such as timber, water, and minerals
- Increases economic security by tapping a domestic source of materials
- Prevents pollution by reducing the need to collect new raw materials
- Saves energy
- Supports American manufacturing and conserves valuable resources
- Helps create jobs in the recycling and manufacturing industries in the United States

For more information, visit [www.epa.gov/recycle](http://www.epa.gov/recycle).

## International Roadcheck 2021

The Commercial Vehicle Safety Alliance's (CVSA) International Roadcheck will take place May 4-6. Over that 72-hour period, commercial motor vehicle inspectors in jurisdictions throughout North America will conduct inspections on commercial motor vehicles and drivers.

During International Roadcheck, inspectors primarily conduct the North American Standard Level I Inspection, a 37-step procedure that includes two main inspection categories: an examination of driver operating requirements and vehicle mechanical fitness. This year, inspectors will focus on one driver operating requirement category (hours of service) and one vehicle mechanical fitness category (lighting).

To help drivers and motor carriers prepare for this year's International Roadcheck, CVSA created an informational flyer on hours of service and lighting. View it here: <https://www.cvsa.org/wp-content/uploads/2021-International-Roadcheck-Emphasis-Areas-Flyer.pdf>

For more information on International Roadcheck, visit [www.roadcheck.org](http://www.roadcheck.org).

I learned that we can do anything, but we can't do everything, at least not at the same time. So think of your priorities not in terms of what activities you do, but when you do them. Timing is everything.

— Dan Millman

Dare to dream, but even more importantly, dare to put action behind your dreams.

— Josh Hinds

## BY THE NUMBERS

Gallons of soap delivered:

**344,295,535**

since 1984

Empty drums saved from landfills:

**6,259,918**

since 1984
