International Roadcheck – Are You Ready?

The Commercial Vehicle Safety Alliance (CVSA) will conduct its annual Roadcheck on May 17-19. For 72 hours, the CVSA will have a high-volume commercial vehicle inspection initiative that covers all of North America. Throughout Canada, Mexico, and the United States you should expect a high number of inspections on commercial motor vehicles at temporary inspection sites, weight stations and road patrols.

The focus this year will be on wheel ends. Wheel ends consists of a spindle, spindle nut, seals, inner and outer tapered bearings, and a hubcap. Per the CVSA, historically about one quarter of the vehicle out-of-service violations are due to wheel end violations. During your pre-trip and post-trip inspections give your wheel ends an extra amount of attention. A visual inspection will verify any signs of leakage around the wheel seal and hub cap gasket, loose fasteners and cracked or broken wheels.

While the main focus of the 2022 International Roadcheck inspections will be on wheel ends, the inspectors will still be looking for all of the normal violations during their inspections. For more information, please visit <https://www.cvsa.org/programs/international-roadcheck/>.

CHEMSTATION

Time for Telemetry

ChemStation's Tank Telemetry provides remote inventory monitoring solutions for our refillable tank system. This weather-proof monitor uses cell phone technology and is designed for daily call outs, both scheduled and event-driven.

Not only will we monitor your inventory and inform you when you need a delivery, we will be sure to make a delivery time and day that best suits your establishment. We can even inform you when we spot a change in your inventory usage levels.

If you think it's time your company tried Tank Telemetry, reach out to your local ChemStation rep. We want to help bring safety, convenience, and local service right to your door.

See You in Minneapolis

As an industry-affiliate member of the Brewers Association, ChemStation will be attending the Craft Brewers Conference & BrewExpo America® in Minneapolis on May 2-5. This is an industry-only conference and trade show and is the largest craft brewing industry gathering in the U.S.

The Craft Brewers Conference offers concentrated brewing education and idea sharing. BrewExpo America® helps brewing professionals encounter the best products and services that industry vendors have to offer. To learn more about this event, please visit www.craftbrewersconference.com.

If you plan to attend, please come see the ChemStation Team in Booth 1040.

If people like you, they'll listen to you, but if they trust you, they'll do business with you.
—Zig Ziglar

Wonder what your customer really wants? Ask. Don't tell.
—Lisa Stone

Would you like me to give you a formula for success? It's quite simple, really: Double your rate of failure. You are thinking failure as the enemy of success. But it isn't at all. You can be discouraged by failure, or you can learn from it, so go ahead and make mistakes. Make all you can, because remember: That's where you will find success.
—Thomas J. Watson
