

Forklift Pedestrian Safety

Whenever people are around, forklift pedestrian safety is very important. For tips on forklift pedestrian safety, view the infographic at www.forkliftcertification.com/forklift-traffic-safety/ titled "Forklifts and Pedestrians: Safety Considerations, Statistics & More."

The site also mentions that workers need to follow several protocols as pedestrians around forklifts, including:

- Understanding that forklifts can't stop suddenly
- Staying well clear of forklifts in operation
- Being aware that a forklift has a wide rear swing radius
- Always using designated pedestrian walkways
- Never being on board a forklift unless it's designed to carry riders
- Never walking or standing beneath an elevated load
- Becoming familiar with all OSHA forklift pedestrian safety standards

Forklift and pedestrian safety is essential to both the forklift operator and pedestrians so that they can safely work around each other to avoid accidents and prevent injuries.

[CHEMSTATION] COMMUNICATES WELL AND HAS PROVIDED BOTH CLASSROOM TRAINING FOR OUR ENTIRE PLANT, AND SPECIALIZED TRAINING FOR OUR SANITORS.

CHEMSTATION

ChemStation Partners with You

When you become a ChemStation customer, we become your allies, providing:

- In-house employee training of general practices using our products
- Assistance with 3rd-party audits
- Maintenance and service of equipment
- CIP validations
- Budgeting evaluations
- Evaluation of sanitation practices
- SSOP reviews and more

If you are not already a ChemStation customer, partner with us today by calling 800.554.TANK (8265)!

Refillable Tanks – Making a Difference

Tank 1070-1 is a 165-gallon refillable tank that has been in place at a manufacturing company in the Dayton market since 1995. The customer uses Product 4131 in this tank to clean their floors. Since 1995, Tank 1070-1 has been refilled with over 12,076 gallons and is still going strong.

That means this single tank has prevented over 200 drums, or 4,400 pounds of plastic, from being discarded into landfills. The amount of plastic Tank 1070-1 has saved is the equivalent to the height of 34 adult giraffes if they were stacked on top of each other!

Embrace efficiency and sustainability today at chemstation.com.

Start where you are. Use what you have. Do what you can.
– Arthur Ashe

It does not matter how slowly you go as long as you do not stop.
– Confucius

A good plan violently executed now is better than a perfect plan executed next week.
– George S. Patton

BY THE NUMBERS

Gallons of soap delivered:

366,536,209

since 1984

Empty drums saved from landfills:

6,664,294

since 1984
