

Operation Safe Driver Week

The Commercial Vehicle Safety Alliance (CVSA) organizes several commercial motor vehicle events throughout the year, including Operation Safe Driver Week which occurs this year on July 10-16.

During this week, law enforcement agencies across North America will engage in heightened traffic safety enforcement and education aimed at unsafe driving behaviors by both commercial motor vehicle and passenger-vehicle drivers. The goal is to increase commercial vehicle and non-commercial vehicle traffic enforcement, driver roadside inspections, driver regulatory compliance, and safety belt enforcement.

The focus area for this year's Operation Safe Driver Week is speeding.
