See You at CheeseCon!

CheeseCon will be held April 4-6, 2023 at the Alliant Energy Center in Madison, Wisconsin. This event includes more than 3,000 dairy industry leaders, suppliers, marketers and more sharing information about the latest in cheese technology, workforce, whey opportunities, product safety, marketing and dairy exports.

Co-hosted by Wisconsin Cheese Makers Association and the Center for Dairy Research, the Conference features impactful seminars, ample networking events, and an exhibition hall featuring the industry's most trusted supplier partners. If you are planning to attend this event, please stop by and say hello to the ChemStation Team in Booth #423! We will be there showcasing our water-based, biodegradable sanitation and process chemicals for all your cheese and dairy industry needs.

National Work Zone Awareness Week

National Work Zone Awareness Week (NWZAW) is an event that takes place across the United States, with partnerships between state departments of transportation (DOT), national road safety organizations, government agencies, private companies and individuals.

This annual campaign is held at the start of road construction season to encourage safe driving through highway work zones. It's being held this year April 17-21.

This event stresses the importance for drivers to slow down and stay focused while approaching and passing through a roadway work zone. Learn more at nwzaw.org.

We Are Different

We are not like the other industrial cleaning chemical companies – that is what makes us unique, efficient, economical, sustainable, safe, and the best choice you could make for your company! Here are a few ways we are different:

- **Refillable Tanks:** No more employee handling, storing, and disposing of containers.
- **Efficient:** Custom-blended products are delivered directly into the tank, where you need it and right when you need it.
- **Telemetry:** Remote inventory monitoring and reporting for our tank systems. You'll never run out of product and your employees don't have to manually check the tanks.
- **Organized:** Cleaner, safer chemical rooms.
- **International Coverage:** 60+ locations across North America allows for a quick response time.
