

# VEHICLE CLEANING

OUR SYSTEM IS YOUR SOLUTION  
FOR ALL OF YOUR CLEANING AND PROCESS CHEMICAL NEEDS

# ChemStation Solutions

The ChemStation System offers custom-formulated, environmentally friendly, industrial cleaning and process chemicals, delivered to refillable containers.

## Truck Cleaning

Truck and fleet washing is a large part of the transportation industry. ChemStation provides acidic and alkaline products that can work alone or in conjunction with each other to meet the specific needs in this field.

ChemStation offers:

- Superior cleaners for exhaust fume stains
- Aluminum brighteners and soft metal safe cleaners
- Excellent washes for dirt, oil, road grime, and road film that will not harm painted surfaces
- High foam products
- Products for touchless and two-step systems

## Car, Bus, and Heavy Equipment Cleaning

In an ever-changing industry, ChemStation meets the needs of the vehicle cleaning market with quality products that are custom-formulated to meet exact specifications – from full service, in-bay, self-serve, friction rollover, and touchless carwashes to industrial automatic and manual truck, bus, and heavy equipment washes.

Product options include:

- Low- and high-foam presoaks
- Foaming soap for wands
- High-foaming friction soap
- Touchless presoaks/detergents
- Triple color foam detergents/waxes
- Windshield cleaning fluids
- Interior cleaners and deodorizers
- Foam brush system
- Wheel/tire cleaners
- Clear coat conditioners
- Rinse aids/drying agents

## Efficient Solutions

To meet the specialized needs of the vehicle cleaning industry, ChemStation manufactures water-based, biodegradable chemicals that:

- Are effective in hard or soft water and require no special softeners or additives
- Will not dull, waterspot or streak painted surfaces
- Span the foaming spectrum from no- to high-foam
- Are safe for use on rubber and soft metal surfaces
- Are custom-formulated to meet customer needs

### Aircraft Cleaning

The ChemStation System offers custom-formulated products designed to service the aircraft industry. These include exterior cleaners, general cleaners and degreasers, carbon removers, and odor control for chemical toilets.

Product approvals:

- Airbus
- Boeing
- Aerospace Materials Spec. 1526B

### Tanker Cleaning

Tanker cleaning is the perfect application for the ChemStation System. We offer internal and external cleaning capabilities while eliminating the costs and problems of handling drums.

Product options include:

- Detergents, pre-solves, acid brighteners, degreasers, tote cleaners, odor control
- One- and two-step applications
- Low-foam products
- Cab and trailer cleaning

### Locomotive Cleaning

ChemStation products are available to clean and degrease locomotive cars and engines. The ChemStation System provides environmentally friendly options to the railroad industry.

These options include:

- Heavy duty parts/machinery degreasers
- Railroad vehicle cleaners
- Carbon black removers
- Engine cleaners

## ChemStation delivers the solutions you need

### Custom Formulations

ChemStation can create special formulas to meet your requirements and specifications, including chemical content, pH, foam levels, etc.

### Equipment Options

The ChemStation System includes a variety of tank sizes, dispensing methods, and accessories designed to meet customers' individual requirements. Additionally, ChemStation's Tank Telemetry (using cell phone technology) provides remote inventory monitoring and reporting for our tank systems.

### Environmental Solutions

State-of-the-art techniques are used to formulate water-based biodegradable cleaning compounds.

- Assistance in complying with applicable USDA regulations
- Assistance in waste stream management
- No contamination from discarded containers or residue
- Analytical processes exceed all environmental standards
- An optional line of environmentally-preferred GreenSystem® biodegradable products as well as EPA-approved DfE (Design for the Environment) products

### International Coverage

ChemStation's network of Manufacturing Centers services local, regional, national, and Mexican customers with "Just-in-Time" delivery and local service support.
