

## IAFP 2023 Annual Meeting

July 16-19, 2023

Toronto, Ontario, Canada

CHEMSTATION

## ChemStation will be at IAFP

The International Association for Food Protection (IAFP) annual meeting will be held in Toronto July 16-19. This show is one of the largest international food safety shows of the year.

It provides attendees with information on emerging and recent food safety issues, innovations in science, and networking opportunities with some of the top food safety professionals around the world. It is attended by more than 3800 industry, academic, and governmental professionals.

ChemStation will have its inaugural exhibit at Booth #346. Additionally, Kara Mikkelson, Director of Food Safety for ChemStation, will be co-convening session S27 "Sustainability: Is Food Safety Compromised as a Byproduct?" on Tuesday, July 18, 2023 at 8:30 am to 10:00 am in Room 701B.

Attending IAFP? Stop by the booth to learn how ChemStation can help you with your food safety needs. Learn more about IAFP at <https://www.foodprotection.org/>.

## Operation Safe Driver Week

The Commercial Vehicle Safety Alliance (CVSA) organizes several commercial motor vehicle events throughout the year, including Operation Safe Driver Week which occurs this year on July 9-15.

Operation Safe Driver Week is a safe-driving awareness and outreach initiative aimed at improving the driving behaviors of passenger vehicle drivers and commercial motor vehicle drivers through educational and traffic enforcement strategies and interactions with law enforcement.

The focus area for this year's Operation Safe Driver Week is speeding because it remains a persistent problem on our roadways. Speeding increases the frequency and severity of crashes, and unsafe speeds are a well-documented factor in fatalities and injuries.

For more information on Operation Safe Driver Week, including results from previous Operation Safe Driver Weeks, please visit <https://www.cvsa.org/programs/operation-safe-driver/>.

## Dust Control Solutions

The ChemStation System offers custom-formulated solutions for all of your dust control needs. Our unique blends are manufactured locally and delivered to refillable containers.

We have products that are formulated specifically for use in dust control for unpaved roads, landfills, farms, parking lots, walkways, road construction, storage piles, and stone quarries. Application methods include gravity-fed spray bars, orchard sprayers, sprinklers, and other spraying equipment.

Dust control is just one of the many solutions that we offer. Visit [chemstation.com](https://chemstation.com) to learn how our custom-formulated products are used in other industries too!

Your passion is waiting for your courage to catch up.  
— Isabelle Lafleche

Even if you fall on your face, you're still moving forward.  
— Victor Kiam

Ambition is the path to success. Persistence is the vehicle you arrive in.  
— Bill Bradley

## BY THE NUMBERS

Gallons of soap delivered:

**391,386,539**

since 1984

Empty drums saved from landfills:

**7,116,118**

since 1984
