

March is National Ladder Safety Month

Join the American Ladder Institute (ALI) and participate in National Ladder Safety Month in March. This important month was designed to raise awareness of ladder safety and to decrease the number of ladder-related injuries and fatalities.

ALI believes ladder accidents are preventable with thorough safety planning, training, and continuous innovation in product design. The more people, organizations, and businesses get involved, the wider the message spreads, and the more people learn about proper ladder safety.

National Ladder Safety Month 2024 will focus on four key themes:

- **Week One:** Training and Awareness
- **Week Two:** Inspection and Maintenance
- **Week Three:** Stabilization, Setup, and Accessories
- **Week Four:** Safe Climbing and Positioning

Visit www.laddersafetymonth.com for a wealth of safety resources including ladder safety training, videos, flyers, and articles.

Two New Locations!

We are excited to announce the opening of two ChemStation Manufacturing Centers – one is located in Boise ID and the other is in Omaha NE!

They join us in our mission of “Keeping It Clean” by supplying customers with environmentally safe, water-based detergents and process chemicals using our refillable delivery system.

Our network of Manufacturing Centers services local, regional, and national customers with “just-in-time” delivery and local service support.

If you are not yet a ChemStation customer, please visit www.chemstation.com to find a ChemStation location near you!

Refrigerated Foods Association (RFA) Annual Conference

The RFA's 43rd Annual Conference & Tabletop Display takes place March 3-5 in Fort McDowell, Arizona at the We-Ko-Pa Resort and Conference Center. The RFA is an organization of manufacturers and suppliers of refrigerated prepared foods united by a common interest: to advance and safeguard the industry.

One of the highlight events of the RFA Conference is the Tabletop Display & Reception on March 4, where Associate Members display and discuss the latest innovations and technologies in packaging, equipment, ingredients, and services for the refrigerated foods industry. This exhibition gives attendees the chance to see what's new in the industry and connect with the suppliers they need in order to make their company more productive and competitive. ChemStation is an RFA member and we are proud to be participating in this exhibition, so be sure to visit our display if you are attending this year's RFA Conference. Learn more at www.refrigeratedfoods.org.

If you don't go after what you want, you'll never have it. If you don't ask, the answer is always no. If you don't step forward, you're always in the same place.
