

SEAFOOD INDUSTRY

CHOOSE CUSTOM FORMULATED DETERGENTS AND SANITIZERS

The ChemStation System offers custom-formulated, environmentally friendly, industrial cleaning and process chemicals, delivered to refillable containers.

- Outstanding chemistry for degreasers, foaming chlorinated cleaners, acid cleaners and descalants, tub/tray wash, fryers, drain cleaners and sanitizers.
- We often deploy equipment as part of our solution – mobile foaming units, wall-mounted foaming and sanitizing stations or simple hydro sprayers – as a means of applying chemicals in a seafood plant.
- We are all about service. Our service and sales staff visit your plant on a pre-determined schedule that we work out with you to ensure your equipment is running and your dilutions are on target.
- Support for training, pre-audit preparation, SSOP assistance, etc.

INNOVATIVE TECHNOLOGY – TELEMETRY

Tank Telemetry provides online inventory monitoring and reporting solutions for our tank systems. This allows you to view tank level and demand forecasting information right on your computer screen.

OUR UNIQUE SYSTEM

Our refillable delivery system addresses so many issues it's no surprise that our customers love doing business with us.

Efficient Solutions:

- Our System saves you money – no tote or drum cost, no shipping or freight cost and no hidden costs like time wasted ordering, receiving, handling, or disposing of containers.
- Local manufacturing and delivery source.
- Custom-formulated cleaning compounds are blended to meet your specifications.

Safe Solutions:

- Environmentally safe (biodegradable) for discharging and disposal.
- Products safe for use on many surfaces.

Environmental solutions with a refillable delivery system that eliminates potential environmental contamination from discarded containers.
