

MICRO MONTHLY ONLINE WEBINAR

## CSI Preview with Adam Borger and Joe Meyer

Friday, June 12, 2026 · 10:00 a.m. CT

## Micro Monthly: CSI Workshop Preview

Join us for a special Micro Monthly webinar, now scheduled for Friday, June 12th at 11am ET/10am CT, featuring Adam Borger (Food Research Institute) and Joe Meyer, formerly of Kerry! This session will serve as an introduction to the upcoming ChemStation Institute (CSI) workshop that Adam and Joe will lead, which is focused on conducting a pathogen investigation in a food manufacturing facility.

During the webinar, we will introduce Adam and Joe to the audience and provide an overview of the workshop's approach to investigating contamination events – covering the fundamental principles, investigative mindset, and real-world challenges involved in tracing pathogens within complex food production environments.

With nearly seventy years of combined industry experience, Joe and Adam bring deep expertise in food safety, microbiology, and applied investigations. This session will offer a preview of the insights and practical knowledge they will share during the CSI workshop.

## PCQI + HACCP Virtual Training: June 16-18

Join us for PCQI + HACCP Virtual Training, a live, three-day course covering Preventive Controls for Human Food regulations, HACCP principles, GMPs, hazard analysis, sanitation controls, supply chain controls, recall planning, and more.

This training uses the FSPCA standardized curriculum recognized by the FDA and is designed for food safety professionals in manufacturing, processing, packing, and holding environments.

Full attendance with cameras on is required. Those who complete this live, web-based course will receive PCQI and HACCP certificates. [Click here](#) for all the details and to register!

## Concrete Removal Solutions

ChemStation offers a full line of products to service the concrete industry from concrete removal on truck barrels and truck bodies to rust inhibition. Our products are designed to remove concrete, road film, rust, and oxidized deposits.

ChemStation products include:

- Scientifically formulated cleaners for presoak and pressure washing applications
- Safe alternatives to hydrofluoric acid
- Products safe for use on painted surfaces, glass, aluminum, and chrome-plated steel
- Efficient two-step cleaning method
- Effective rust inhibition to aid against acid attack on metal surfaces
- Undercarriage protection against concrete overspray

To learn more about this and other ChemStation solutions, please visit [chemstation.com](http://chemstation.com).

Great things in business are never done by one person; they're done by a team of people.  
– Steve Jobs

Trust is like the air we breathe – when it's present, nobody notices; when it's absent, everybody notices.  
– Warren Buffett

Do what you do so well that they will want to see it again and bring their friends.  
– Walt Disney
